- (6) Never Mind

DAMAGE REPORT

Shields 60%
Engines 50%
Guns 25%
Radar 25%

Holding down (P) will bring up the Power Distribution meter. Moving the joystick to the corners will change the power distribution to the value the stick is left.

Pressing (C) will bring up the Comm options. At this point, the selections will be made by pressing the 1-top number keys. The functionality will remain as in previous Wing Commanders.

This is a visual display of what systems are damaged/destroyed, and should indicate to the player that the systems that are damaged are being repaired.

This display (accessed by pressing S) shows the status of the shields. **Holding down** (S) will allow the player to change the distribution of the shields.

3

Radar - Persistent Display, the radar will act as in previous Wing Commanders

Radar

Persistent display, the radar will act as in previous Wing Commanders. Central circle is player's view cone, quads are to the sides of player, outer ring is behind player.

4

Each display can be brought up separately.
