

B1

Stiletto What the...? (PRBE)
Maestro Those aren't Kilrathi fighters, unless they've got some new technology.
Stiletto Just stay cloaked until we figure out if they're friendly.

INSERT CLOAK CONVERSATION HERE

Maestro Guess they're not friendly.

B2

Anderson Sensors indicate that an unknown source is scanning all comm frequencies. Keep your ears open.

AFTER AN ALIEN COMM

Stiletto Is everybody picking up their transmissions?
Maestro I'm getting them. Whatever they're saying, though, my ship's computer doesn't recognize it.
Maestro I'm going to open a voice link to Finley. Maybe she'll recognize this stuff.

AFTER AN ALIEN COMM

Maestro Finley, are you reading this?
Finley I've got you, Zero. Can't tell you for sure what it is we're hearing, though. I'll run some data analysis on it.

Finley Folks, our computer has no idea who – or what – is talking to you out there. Be careful.

C1

From convoy escort ships (all wild)

Voice 1: Keep at them, boys! Help's on the way!

Voice 2: There are too many of them! They're coming in too fast! Are we getting help from the Midway, or not?

Voice 1: Got to eject! Somebody pick me up!

Voice 2: Sit tight, lieutenant. We don't have an SAR available right now.

Voice 1: No! Keep away from me! Somebody... HELP!

Voice 2: Fighters, concentrate on that strange ship! It's picking up OUR pilots!

C3

Zero Looks like these boys learned our language quick enough.
Maestro I think I liked it better when I didn't understand them...

Whenever

ALIEN Your test is at hand,
Maestro Test? Nobody said anything about a test. I didn't study.
